How we photograph 03

Seeing beneath the skin 04

How a plan works 05

Home care 06

BY CONCERN — PAGE

PG — Pigment + sun damage — C02 · C08 · C10 · C16 · C13 — 5 CASES — P. 07

RD — Redness + rosacea — C03 — 1 CASE — P. 15

FL — Fine lines + firmness — C04 — 1 CASE — P. 19

TX — Texture, pores + scars — C05 · C06 · C07 · C09 · C15 — 5 CASES — P. 23

NR — New results — C19 · C18 · C20 — 3 CASES — P. 56

IJ — Injectables — C01 · C17 — 2 CASES — P. 74

HS — Home support — SUNSCREEN · RETINOL · VITAMIN C · BRIGHTENING · HQ — 6 RANGES — P. 80

Each case shows the concern, why we chose the plan, the treatment, the home care and the result. Journeys show the healing day by day.

OUR STANDARD

How we photograph.

So the only thing that changes is the skin.

01 **Skin unretouched**
No smoothing, filters or retouching on the skin. What you see is the result.

02 **Background + colour evened**
Photos are taken in different rooms. We even the background and colour so the skin is easy to compare.

03 **Lined up, never reshaped**
We line photos up by the eyes. We only crop and resize, never stretch or warp.

04 **Originals kept**
Every original is saved untouched.

- - - EYE LINE: SAME HEIGHT IN BOTH PHOTOS

IMAGING — OBSERV® 520x skin analysis · $50, put toward your treatment · see next page

SKIN ANALYSIS · OBSERV® 520X

We see what the eye cannot.

OBSERV® 520x clinical imaging reveals hidden sun damage, pigment, redness and texture in seconds. Every plan is built on it. Every visit is measured against it.

10X	10 Sec	0° 40° 90°
ADVANCED LIGHT MODES	AVERAGE CAPTURE TIME	MULTI-ANGLE PRECISION IMAGING

DAYLIGHT
Provides a clear baseline image showing the skin as it appears under normal lighting conditions.

TEXTURE
Reveals surface details, highlighting fine lines and skin smoothness for a clear texture view.

PIGMENTATION
Shows variations in skin tone, revealing areas of uneven pigmentation and sun exposure.

VASCULARITY
Highlights areas of redness, helping identify sensitivity or skin reactions.

01 · SEE	Hidden sun damage, pigment + redness	02 · PLAN	Treat what is actually there
03 · TRACK	Same angle, same light, every visit	04 · KEEP	Your before + after, sent to you

THE PROCESS

How a plan works.

Every case in this book followed the same four steps.

01

Consultation

We photograph and image your skin, listen to your goals, and agree on a plan together.

02

Treatment series

Treatments are spaced over weeks. Most results build across a series, not one visit.

03

Home care

A short, specific regimen that supports the treatment — and protects the result.

04

Re-image + review

We photograph and image again, the same way, and adjust the plan from what we see.

ON EACH CASE PAGE

Concern · Why this plan · Treatment · Home care · Outcome

HOME CARE

Treated in clinic. Kept with medical-grade skincare.

Treatment starts the change. Home care keeps it.

After every visit, your provider builds a simple routine for your skin. Each case in this book shows the exact products that client went home with.

Between visits we check in, adjust the routine as your skin changes, and answer questions. You are never doing it alone.

Ask in clinic or shop online at shop.foreveryoungedmonton.com.

Sunscreen

Every day. It protects the result.

SEE THE RANGE →

Tinted sunscreen

Protection with a light, even finish.

PG

Pigment + sun damage.

5 CASES

WHAT IT IS

Brown spots, sun damage and melasma. Pigment can sit deep in the skin, so it needs a plan, not one product.

HOW WE TREAT IT

Sciton® BBL®, HALO®, MicroLaserPeel®, Moxi and cosmelan®, with a home routine that keeps pigment from coming back.

CASES IN THIS SECTION

		PAGE
C02	Melasma · ZO® 2% HQ → cosmelan®	08
C10	Sun damage + uneven tone · Sciton® BBL® + HALO®	39
C13	Uneven tone · Moxi	53
C08	Melasma + sun damage · Sciton® BBL® + Moxi	32
C16	Pigment + sun damage · MicroLaserPeel® + HALO®	50

FIRST VISIT · OBSERV® 520X

In daylight, her melasma looked mild. The pigmentation view showed how far it reached across her forehead and cheeks. That is what her plan was built on.

VAN · HER PLAN

One scan. One plan.

Van's first OBSERV® scan showed melasma across her forehead and cheeks. We began at home with the ZO® hydroquinone program, supported by a daily antioxidant. Eight weeks later her pigment had cleared significantly. We then treated with cosmelan® to refine tone and texture. Her maintenance plan protects the result.

HER JOURNEY

01
First visit
Melasma mapped on OBSERV®

02
8 weeks after HQ kit
Second scan, 8 months in. Clear improvement

03
cosmelan®
Professional depigmentation treatment

04
5 weeks after
Tone and texture refined

VAN · COSMELAN® · FRONT

Five weeks. Clearer underneath.

Same machine, same light, same angle. Before cosmelan®, then five weeks after. The pigmentation view shows the melasma on her forehead and cheeks fading.

VAN · HER HOME CARE

Built for her skin. Kept by her routine.

Every product was chosen from what her scans showed. Each one has a job: clear, maintain, refine, protect.

CLEAR · ZO® HQ PROGRAM
MAINTAIN · COSMELAN® 2
REFINE · ZO® RETINOL 1%
PROTECT · PHLORETIN CF® + SPF 50

SHOP ONLINE · 3 ITEMS · $515.00 →

Adds the retinol, Phloretin CF® and SPF to one cart. The HQ kit and cosmelan® 2 are in clinic. Prices before GST.

01 · CLEAR — ONCE A YEAR

ZO® Pigment Control Program + Hydroquinone Kit

Why for Van: Hydroquinone is the most direct way to reduce the melanin behind melasma. Exfoliation and retinol help it work deeper. Used in a set cycle, then a break, so she repeats it once a year.

KEY INGREDIENTS A 6-step medical-grade system: Gentle Cleanser, Pigment Control Crème (2% HQ), Pigment Control + Blending Crème (2% HQ), Exfoliation Accelerator, Wrinkle + Texture Repair, Daily Power Defense.

KIT $398.00 — AFTER A CONSULTATION

02 · MAINTAIN — DAILY

mesoestetic® cosmelan® 2 maintenance cream

Why for Van: After the in-clinic cosmelan®, melasma can return. This is the home step that keeps pigment from building back up.

KEY INGREDIENTS Kojic acid · niacinamide · vitamin C · salicylic acid · retinyl palmitate

30 G $444.57 — IN CLINIC

03 · REFINE — BUILT UP TO DAILY

ZO® Retinol Skin Brightener 1%

Why for Van: Evens tone and smooths texture, the two things cosmelan® improved. ZO: "rapidly improve the appearance of uneven skin tone."

KEY INGREDIENTS High-potency retinol in slow-release delivery · bakuchiol · brightening blend

50 ML $220.00 — ADD TO CART

04 · PROTECT — EVERY MORNING

SkinCeuticals® Phloretin CF®

Why for Van: Daytime antioxidant protection against UV, pollution and infrared, all of which can trigger melasma. Also helps improve the look of discoloration.

KEY INGREDIENTS 2% phloretin · 10% pure vitamin C · 0.5% ferulic acid

30 ML $230.00 — ADD TO CART

05 · PROTECT — EVERY DAY, REAPPLIED

SkinCeuticals® Clear Daily Soothing UV Defense Sunscreen SPF 50

Why for Van: Sun and visible light are the main melasma triggers. A hydrating daily SPF that can replace her moisturizer, and the most important step in keeping her result.

30 ML $65.00 — ADD TO CART

RD

Redness + rosacea.

1 CASE

WHAT IT IS

Redness, flushing and rosacea. It flares with heat, sun and the wrong products.

HOW WE TREAT IT

Sciton® BBL® light in clinic, with calming home care and a daily sunscreen.

CASES IN THIS SECTION

		PAGE

01 · PROTECT

EVERY MORNING

SkinCeuticals® Phloretin CF®

Why for her: Daytime antioxidant protection against UV, pollution and infrared, so the lighter pigment from her treatments stays protected. Also helps improve the look of discoloration.

KEY INGREDIENTS 2% phloretin · 10% pure vitamin C · 0.5% ferulic acid

30 ML $230.00

ADD TO CART

02 · FIRM

EVERY EVENING

SkinCeuticals® A.G.E. Interrupter Advanced

Why for her: Supports firmness and fine lines between treatments, building on what HALO® started on her face and neck. SkinCeuticals: "helps reverse visible signs of aging, including fine lines and wrinkles."

KEY INGREDIENTS 18% Proxylane™ · 4.25% flavonoids

48 ML $240.00

ADD TO CART

03 · RENEW

EVERY EVENING

ZO® Retinol Skin Brightener 1%

Why for her: Night retinol that keeps evening her tone and smoothing texture between MicroLaserPeel® treatments. ZO: "rapidly improve the appearance of uneven skin tone."

KEY INGREDIENTS High-potency retinol in slow-release delivery · bakuchiol · brightening blend

50 ML $220.00

Pigment Control Program + Hydroquinone Kit

A 2% hydroquinone program for pigment that will not shift on its own. We plan it with you. See the next page.

AFTER A CONSULTATION

HOME SUPPORT · ZO® HQ PROGRAM

Clear the pigment.
Keep it even.

A complete system with 2% hydroquinone for hyperpigmentation, melasma, sun damage and uneven texture.

WHO IT IS FOR	Melasma, sun damage and pigment that has not shifted with serums.
NOT FOR	Pregnancy or breastfeeding.

AFTER A CONSULTATION

ZO®

Pigment Control Program + Hydroquinone Kit

WHAT IS IN IT · 6 PRODUCTS

01	Gentle Cleanser	60 ML
02	Pigment Control Crème 2% HQ	80 ML
03	Pigment Control + Blending Crème 2% HQ	80 ML
04	Exfoliation Accelerator	30 ML
05	Wrinkle + Texture	30 ML
06	Daily Power Defense	30 ML

HOW IT WORKS

01
Consult
We look at your pigment and skin type, and decide together if HQ is right for you.

02
Start
Use the kit morning and night, exactly as your provider shows you.

03
Protect
Sunscreen every day. Without it, pigment comes back.

04
Check in
Follow-up visits track progress. HQ is used for a set time, then paused. We plan what comes next.

Prefer no hydroquinone? Ask about the ZO® Skin Tone Evening + Brightening Program.

YOUR PLAN STARTS HERE

Book a consultation.

Photographs, imaging, and a plan made for your skin.

Book online → Financing → Treatments + pricing →

Financing available through Beautifi, for treatments and skincare.
