OBSERV® SKIN IMAGING

01 **Consultation**

Complimentary. Your skin, your goals and your timeline. OBSERV® imaging lets us see beneath the surface.

02 **Find your concern**

See which treatments match what you want to change, and how much downtime each one has.

03 **Plan your timing**

Typical sessions, and how far ahead to book before an event.

NEW TO TREATMENTS?

Most clients begin with a deep, decongesting facial: clear skin first, then go deeper. Little or no downtime.

FACIALS · THE FOUNDATION

Clear skin first.

Then go deeper.

WHY IT MATTERS

A deep, decongesting facial prepares your skin for everything that follows.

Clear pores and a smooth surface help light, laser and microneedling work evenly, and help you heal well.

BROADBAND LIGHT · SCITON®

BBL® HEROic™

Studied at Stanford.

WHAT IT IS

The world's first smart pulsed light.

Broadband light fades brown spots and redness, and calms breakouts. Three ways to use it, each for a different goal.

HOW IT WORKS

01 **Filters are chosen** for your concern: spots, redness or breakouts.

02 **Gentle pulses of light** are absorbed by pigment and vessels.

03 **Spots darken, then lift away.** Skin looks clearer in about two weeks.

CYNOSURE® ELITE IQ® · LUTRONIC® CLARITY II™

Laser Facial + Vein

Calmer, clearer skin.

WHAT IT IS

Laser energy for redness, tone and visible vessels.

The Laser Facial is gentle: nothing is removed from the surface. Laser Vein treats spider veins and red spots while the skin around them is protected.

HOW IT WORKS

01 **Choose the depth.** Glow for glow and mild redness. Corrective for stubborn redness, pores and texture.

02 **Vessels are treated one by one,** on the face and body.

03 **Cooling protects** the surrounding skin with every pulse.

GENTLE FRACTIONAL LASER · SOLTA MEDICAL®

Clear + Brilliant®

Fresh skin, little downtime.

WHAT IT IS

The gentle laser for early changes in tone and texture.

An easy routine treatment that keeps skin fresh between stronger lasers, and helps your skincare work better.

HOW IT WORKS

01 **1440 Original** refines texture and pores, and softens early fine lines.

02 **Permea 1927 nm** brightens and evens tone.

03 **Skincare absorbs better** in the days after each treatment.

MICRONEEDLING · DERMAPEN 4™

DP4™ Microneedling

Collagen, from the needles alone.

WHAT IT IS

Our lightest microneedling. No heat, no light.

Fine needles create millions of tiny channels and your skin repairs itself: smoother texture, refined pores, softer scarring.

HOW IT WORKS

01 **Fine needles** open tiny channels at a set depth.

02 **Your skin's natural repair** starts, building fresh collagen.

03 **Results begin after the first** treatment and build over three to six.

RF MICRONEEDLING

Sylfirm X®

Two RF modes. One personal treatment plan.

WHAT IT IS

More advanced than standard microneedling.

Fine needles carry radiofrequency heat beneath the surface. Your skin rebuilds collagen for firmer, smoother skin, and the gentle pulsed mode treats melasma and redness.

HOW IT WORKS

01 **25 gold-plated needles** enter the skin to a set depth.

02 **Heat along the full needle,** not just the tip, for even energy.

03 **Two modes.** Continuous builds collagen. Pulsed calms pigment and redness.

MELASMA + PIGMENT · MESOESTETIC®

Cosmelan®

One visit. A home programme that keeps working.

WHAT IT IS

A structured treatment for melasma and stubborn pigmentation.

The Cosmelan® mask is applied in clinic, then you continue at home. Pigment fades over the following weeks.

HOW IT WORKS

01 **In clinic,** the Cosmelan® mask is applied.

02 **At home,** it stays on for a set number of hours, then is washed off.

03 **Home care cream** continues the work for months.

MONOPOLAR RADIOFREQUENCY · SOLTA MEDICAL®

Thermage® CPT

One session. Firmness that keeps building.

WHAT IT IS

Tightens in one visit, then keeps working for months.

Non-invasive radiofrequency heats deep beneath the skin, and new collagen forms over the following months. Most clients return every one to two years.

HOW IT WORKS

01 **A cooling tip** protects the surface of your skin.

02 **Radiofrequency heats** the deeper layers, so collagen tightens.

03 **New collagen** keeps forming for up to 6 months.

A booster changes your skin, not your shape.

WHAT IT IS

Hydration and glow, not volume.

TEOSYAL® Redensity 1 adds hydration through tiny, measured placements. WorldPRP® uses your own platelets, with nothing synthetic added, for the face or the scalp.

HOW IT WORKS

01 **Nine needles** meet the skin at the same depth.
