Every morning

Sunscreen is the last step of your morning routine, on top of moisturizer.

Reapply

Every 2 hours outdoors, and after swimming or sweating. Powders make it easy over makeup.

After a treatment

Choose mineral. Your provider will tell you how long to stay out of the sun.

SKIN · Q + A Questions we hear most.

Which sunscreen is right for me?

Mineral for sensitive skin and after treatments; tinted if you want coverage; powder to reapply over makeup. See the sunscreen pages.

Can I use vitamin C and retinol?

Yes. Vitamin C in the morning, retinol at night.

Can I mix brands?

Yes. We build regimens across brands around your skin.

Can I try before I buy?

Ask us for samples at your visit.

When should I start a retinol?

Most adults can start with a low strength, 2-3 nights a week. We'll tell you when to build up.

How long until I see results?

Most products need 6-12 weeks of daily use. Retinol and pigment care can take longer.

What should I use after a treatment?

Gentle care only: a calming spray, a soothing cream and mineral SPF. Your provider will give you aftercare.

Can I finance my skincare?

Yes. Beautifi financing covers skincare as well as treatments.
